The Moral Obligation Remains.

(Washington Gazette.) The State prohibition victory of Tuesday, cannot be all of it. That is, a big majority vote for State prohibition is practically worthless unless there be the same moral work continued that brought votes to the polls. It was a sensational campaign, that which culminated Tuesday at the polls. Politician and preacher, teacher and pupil, farmer, and merchant, Democrat and Republican, white and black, all were on the same side. All worked towards a common end, to accomplish the same purpose. The result is accomplished, which declares for State prohibition.

It now remains for the sincere people, the Christian women and men, to sustain the vote by demanding that the law be upheld when it goes into effect, and meanwhile to develop the moral obligation that justly goes with the prohibition vote and so preserve the good that should go with the movement that has been undertaken by those favoring the elimination of the liquor traffic in North Carolina.

If this moral obligation shall be fostered, encouraged to grow, it will not be hard for actual prohibition to be the rule in North Carolina and not the exception. The temperance people worked for prohibition to have the cause rewarded as far as possible. The effort to discourage the bringing in of liquor from outside points can prove successful as the moral obligation is proven to the satisfaction and knowledge of those who voted prohibition. The moral obligation remains for true prohibitionists to foster and develop temperance, by example, and not precept.

True Worth.

(Western Publisher.) It will be but a little while until those who knew us and those who never heard of us will pass along through the green mounds in the cemetery and read the epitaphs on our tombstones. And those who knew us will summarize our entire life into a few sentences of truth born of the knowledge of how we lived and what we did to help make life brighter and better for others. They may add, casually, that we left a fortune, but they will dwell rather upon the roses we strewed along the pathway than upon what we put away in our safety boxes for heirs to squabble over. For the money we left they will speak no eulogy upon us, but for the good we did and the perfume of character and gentleness we left behind, they will weave the only wreath that can give glory to the dead and joy to the living.

Feel languid, weak, run-down? Headache? Stomach "off"? Just a plain case of lazy liver. Burdock Blood Bitters, tone liver and stomach, promotes digestion, purifies the blood.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. E. T. Whitehead Co.

The Cruise of The Fleet.

(Youth's Companion.)

When the American fleet was ordered to the Pacific the manufacture of artificial war-clouds became a busy industry all over the world. Another trade that sprang to prosperity just as the fleet left home was the discovery and explanation of shortcomings in the construction of the battle-ships. War was raging in many minds before the ships got up steam, and the fleet was quite destroyed on paper before it reached the tropics.

In spite of fears, the fleet has managed to stagger along over about fifteen thousand miles of water, and will soon be in San Francisco. Meanwhile peace has smiled again. The South American countries have given officers and men a royal welcome, and the world is in harmony with the sentiments of the Peruvian editor in his greeting to the Americans: "No technical authority, either military or diplomatic, believes in the probability or imminence of a great war. The United States has many efficacious resources for dissolving or removing indefinitely the threatening and apocalyptic specter of a universal conflagration such as would take place in the world, given the present aggregation of factors."

Japan, China and Australia have invited the ships to visit them, the invitations have been accepted, and the course round the world has been announced. After a visit to Puget Sound, the fleet will leave San Francisco early in July for Honolulu and Samoa; thence to Australia, for a visit to the cities of Melbourne and Sydney. Then it will turn northward and go to China and Japan, and to the Philippines for target-practice.

The voyage home will be by way of the Suez Canal, and the entire journey will have taken about a year. The first third of it has been prosperous, gratifying to the men of the fleet and to Americans at home. If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative, of course, won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength, and ambition. Test it a few days and be convinced. Sold by A. C. Peterson.

Patience Continence in Well-Doing. (Daniel Webster.) A sense of duty pursues us ever. It is omnipresent, like the Deity. If we take to ourselves the wings of the morning and dwell in the utmost parts of the sea, duty performed or duty violated is still with us, for our happiness or our misery. If we say the darkness shall cover us, in the darkness as in the light our obligations are yet with us. We cannot escape their power nor fly from their presence. They are with us in this life, will be with us at its close, and in that scene of inconceivable solemnity which lies yet further onward, we shall still find ourselves surrounded by the consciousness of duty, to pain us wherever it has been violated, and to console us so far as God may have given us grace to perform it.
